

Pavo Vital

Daily vitamin and mineral balancer

Pavo Vital is a daily balancer: a pellet with all the vitamins and minerals that your horse needs, made from 100% natural raw materials and no unnecessary additives. Pavo Vital is unique due to the addition of the newest trace elements, Intellibond®. Normally trace elements like copper and zinc have a very bad taste for the horse, so supplements containing these trace elements are often not very palatable. But the special Intellibond® trace elements are released in the stomach (not in the mouth) of the horse. Therefore they have no negative effect on the taste! Together with the addition of timothy grass and Lucerne, Pavo Vital is a very delicious pellet!
