

# Pavo FibreNuggets

The best alternative for roughage, suitable for all horses

Sufficient, high-fibre and high-quality roughage is the staple for every horse's diet, however, this is not always self-evident. In some cases, it might be necessary to supplement or even replace your hay or silage wholly or partially. For example, in case of a poor or mediocre quality of roughage, or horses that suffer from teeth problems and consequently have difficulty taking in roughage.

## Pavo FibreNuggets as an alternative to roughage

Pavo FibreNuggets can be used as a high-quality replacement of roughage. The large high-fibre pellets, made from 100% pasture grass from the Alpine foothills in Southern Germany, stimulate chewing and salivation in your horse. More chewing prevents boredom and saliva promotes a healthy digestion. The fragrant and tasty pasture grass consists of a variety of more than 60 different types of grasses and herbs. It is rich in fibres, natural vitamins and trace elements and completely free of molasses and cereals. Thanks to a controlled drying process, the FibreNuggets are of a very consistent quality without mould or dust. This also makes it the ideal replacement for horses that are sensitive to dust and/or mould.

Available in 20 kg bags.

### Important characteristics

- Top quality roughage replacement
- Tasty mixture of Alpine grasses and herbs
- Contains more than 60 different grasses and herbs
- Free of molasses and cereals

### Application

- Suitable for all horses and ponies
- Supplement or whole or partial replacement of roughage in case of poor or bad roughage quality
- Senior horses or horses that have a problem with roughage intake due to teeth issues
- For horses that are sensitive to dust/mould in roughage

### Feeding advice

Pavo FibreNuggets can be fed dry, but for optimum safety we recommend soaking the pellets with sufficient water, in a ratio 1:2 (FibreNuggets : water). Soak the product for 30 minutes in hot water or 1 hour in cold water.

- Feed maximum 0.5 - 1 kg per 100 kg body weight per day.

### Feed scoop content:

- 1 full Pavo feed scoop FibreNuggets contains approximately 0.860 kg.

## Product Specifications

### Contains

meadow hay (high temperature dried, pelletized) 100 %

### Minerals and trace elements (per kg)

Calcium	0,55 %
Phosphorus	0,25 %
Sodium	0,05 %
Potassium	2,9 %
Magnesium	0,17 %

### Nutrients

Energy (DE)	6,0 MJ/kg
Energy (EWpa)	0,48 %
Energy (ME)	5,1 MJ/kg
Crude protein	6,8 %
Crude fat	2 %
Crude fibre	30 %
Crude ash	11 %
Sugar	7,8 %
Starch	2,2 %

### Shelf life

Bags 24 mth

### Package

Bags 20 kg

### Storage advise

Store in a cool, dry and dark place. Reclose after usage
