

# Pavo Performance

Sport pellets for the highest level of performance

## About Pavo Performance

Pavo Performance has been specifically developed to give sport horses maximum endurance and a top-fit, shiny appearance. Horses which need to perform at the highest level (energy level 3) will have, among other things, increased energy and protein needs. The unique composition of this sport pellet will allow (top) sport horses to mainly obtain their energy for sustained exertion from healthy fibres and fats, instead of sugar and starchy sources like cereal grains. It will give your top athlete all the ingredients it needs to optimally perform, without the risk of getting hot!

## Natural vitamin E

Did you know that horses are not able to take in an infinity amount of synthetic produced vitamin E? There is a maximum, after which your horse won't be able to take in more. Thus, Pavo Performance contains natural vitamin E and natural antioxidants that can be absorbed up to 100%, which is more effective. Both of these support the muscle function of your horse and help to remove waste out of your horse's muscles and to reduce muscle pain and or acidification.

## Electrolytes for a fast replenishment

As sport horses do not only sweat in the summer months, but sweat the entire year, Pavo Performance contains electrolytes. Electrolytes are body salts, such as sodium, chloride and potassium that are lost when sweating. These nutrients are essential and play a huge role in the recovery of the muscles.

## Healthy stomach and intestinal flora

The Pavo Performance sport pellet contains excellent digestible grass and beet pulp fibers. The added prebiotics have a lot of healthy features that support a healthy digestion and a stable intestinal flora.

### Important characteristics

- High quality pellet
- Maximum amount of endurance
- High quality protein for the muscle function
- Rich in magnesium and electrolytes
- Added with natural vitamin E and natural antioxidants
- Contains easy digestible fibers
- Added with prebiotics for a healthy stomach and intestinal flora

### Application

Pavo Performance is suited for:

- All disciplines
- Nervous and hot horses
- Sporthorses that perform heavy and very heavy work (energy level 3)

The intensity of your training decides how much energy your horse needs, to keep up with your training session. Pavo Performance is suited for energy level 3:

- Energy level 3: 1 hour of training every day, containing 14 minutes of walking, 23 minutes of trotting and 10 minutes of cantering

### Feeding advice

- Daily advised amount for horses that perform heavy to very heavy work (energy level 3): 0,45 kg per 100kg of body weight. Horse (600 kg): 2-3 kilograms, pony (300 kg): 1 – 1,5 kilograms
- Energy level 3: 1 hour of training every day, containing 14 minutes of walking, 23 minutes of trotting and 10 minutes of cantering
- The daily amount depends on the intensity of your daily work and your horse's pasture routine.

One full scoop Pavo Performance contains 1,2 kg.

## Product Specifications

### Guaranteed analysis

Energy (DE)	11.7 MJ/kg
Energy (EWpa)	0.94 EWpa
Energy (ME)	9.9 MJ/kg
Crude protein	15,4 %
Crude fat	9,5 %
Crude fibre	10,5 %
Crude ash	9,0 %
Sugar	7,0 %
Starch	18,5 %
Calcium	0,9 %
Phosphorus	0,45 %
Sodium	0,65 %
Potassium	1,2 %
Magnesium	0,75 %

### Minerals and trace elements (per kg)

Copper	65 mg
Iron	120 mg
Zinc	260 mg
Manganese	165 mg
Selenium	0,8 mg
Iodine	1,0 mg

- Chelated minerals
- Organic form of Selenium

### Feeding advice

Water should always be available  
450g per 100 kg of body weight per day

### Vitamin levels (per kg)

Vitamin A	15.000 IE
Vitamin D3	2.500 IE
Vitamin E	540 mg
Vitamin K3	3.5 mg
Vitamin B1	38 mg
Vitamin B2	15 mg
Niacinamide	30 mg
Pantothenic acid	21 mg
Vitamin B6	10 mg
D-Biotin	525 mcg
Folic acid	8 mg

### Shelf life

See package

### Contains

Barley  
Oat  
Hay  
Wheat feed  
Sunflower seed meal  
Lucerne (alfalfa)  
Cane Molasses  
Linseed  
Soya hulls  
Beet pulp  
Soybean oil  
Soya (bean), extracted, toasted  
Sodium chloride  
Calcium carbonate  
Magnesium Oxide  
Monocalcium phosphate  
Brewer's yeast  
CellProtect

### Storage advise

Store in a cool, dry and dark place.  
Reclose after usage
