

# Pavo SlobberMash

A wonderful warm treat

Pavo SlobberMash is a complete feed that is easily mixed with warm water. It is especially suitable for fussy eaters and drinkers at competitions and for older horses with dental problems. Pavo SlobberMash can be used to aid recovery after strenuous exercise, illness or simply as a tasty and healthy variation in your horse's menu. The generous amount of pure linseed helps maintain a shiny coat and supports a healthy digestive system thus reducing the risk of colic.

Available in 15kg and 6kg bags.

## Important characteristics

- Full concentrate, high in vitamins
- High pure linseed content and extra vitamin C
- Plenty of bran (19%) to support digestion
- Speeds up recovery
- Easy to prepare with warm water, ready immediately

## Application

Our recommendation in the following situations:

- Veteran horses and horses with dental problem
- Horses with a poor condition
- Horses that need to recover
- As a healthy treat or delicious variation to your horse's diet
- Fussy eaters, for example during competitions

## Feeding advice

- Average advice: 0.2kg per 100kg bodyweight per day.
- Preparation: Mix Pavo 1 part SlobberMash to 1 part hot water. Mix well and allow the mash to cool down to a hand warm temperature before feeding

## Feed scoop content

- One full Pavo feed scoop Pavo SlobberMash contains approximately 0.6kg
