Pavo Mobility

For supple joints

Optimum movement requires healthy joints. The right nutrients can have a positive effect on the condition of the cartilage, synovial fluid and the joint capsule and ligaments that keep the joint together.

Supple joints with Pavo Mobility

Pavo Mobility contains glucosamine and hyaluronic acid that are components for healthy synovial fluid. Chondroitin and MSM (sulphur) have a positive effect on the cartilage. On the cartilage yet these substances alone are not enough to support healthy joints in horses. The most important component is the special collagen in Pavo Mobility that supports the collagen, bone and cartilage. Pavo Mobility also contains vitamin C and the micro-mineral silicon that plays a role in the development of bone tissue, cartilage, collagen and hyaluronic acid. Pavo Mobility does not contain wheat, so it is gluten-free.

Pavo Mobility is available in a convenient 3 kg bucket.

Pavo Mobility

For supple joints

Product Specifications

Contains
Lucerne (alfalfa)
Collagen (Enzymatically hydrolysed collagen)
Calcium carbonate
Rye middlings
Linseedoil
Potato protein
Dextrose

Package

Bucket	3 kg

Storage advise
Store in a cool, dry and dark place.
Reclose after usage

Guaranteed analysis

Energy (DE)	6,2 MJ/kg
Energy (EWpa)	0.5 EWpa
Energy (ME)	5,3 MJ/kg
Dig. crude protein	70 gr/kg
Crude protein	13,0 %
Crude fat	5 %
Crude fibre	23,4 %
Crude minerals	8 %
Sugar	8.3%
Starch	3.5%

Minerals and trace elements (per kg)

Calcium	1 %
Phosphorus	0,3 %
Sodium	0,2 %
Silicon	2.000 mg
Methyl sulphonyl methane	10 g
Hyaluronic acid	1.250 mg
glucosamine sulfate	85 mg
Chondriotine sulfate	20 g
Collagen (Enzymatically hydrolysed collagen)	125 gr

Vitamin levels (per kg)

Vitamin C	4.000 mg
