

Pavo Podo®Grow

Top quality feed for yearlings and two year olds

Pavo Podo®Grow is the top feed for the optimum development of young horses, from weaning to three years. Podo®Grow contains all the nutrients necessary to support optimal and controlled growth of young stock. High levels of minerals including calcium, magnesium plus chelated copper, zinc and manganese help ensure strong, healthy bone and joint development. Highly digestible proteins provide essential amino acids further supporting the growth of healthy tissue.

Discover **Step 1:** Pavo Podo®Lac and **Step 2:** Pavo PodoStart of our Podo®Concept range.
Pavo Podo®Care, a nutritional supplement for very young foals up to 30 months.

Available in 20kg bags and Big Box.

Pavo Podo®Grow is also available in Big Box: the ideal bulk package when you feed 5 to 10 horses the same type of concentrated feed. The Pavo Big Box is more advantageous than bagged feed.

Important characteristics

- Contains the proven Podo® concept for strong bone development
- With extra essential amino-acids
- Magnesium, calcium and phosphorus in the correct ratios for growing horses
- Balanced nutrition for an even growth pattern

Application

- For growing horses from 8 to 30 months
- Pavo Podo®Grow, step 3 in the guidance of the foal to a healthy adult life.
