The muesli topping for sport horses

Based on sound scientific research, developed together with top veterinarians and tested by top riders! Pavo TopSport is the new muesli-based topping for hard working athletes.

The high level of digestible protein in TopSport contains the essential amino acids lysine, threonine and methionine, unmissable for the building and supporting of healthy muscle tone. An oil content of 18% provides your horse with extra slow-release energy and aids in keeping your horse's coat in top condition. And of course, TopSport is fortified with vitamins and minerals to further support your equine athlete.

Results from our TopSport testers: "My horses look fantastic, are full of power and all have exceptional muscle development"

Caution: this product is only suitable for horses in hard work, and for horses that do not have access to grazing who are fed moderate amounts of forage. For individual advice, based on your horses forage analysis please do not hesitate to contact the Pavo feeding advice.
